OUTPERFORM

Thitikorn

(TK TB)

Share Price: Bt14.10

Target Price: Bt20.00 (+41.8%)

Fears are overdone

- Opportunity to accumulate stocks on weakness as new regulation will have limited impact on earnings
- TK may book higher provisions in 2019 under IFRS-9, but impact should be limited as its NPL profile is better than peers'
- OUTPERFORM, Bt20 GGM-based TP implies 2.0x FY18F P/BV; expect HP loan portfolio to continue to grow by 10% in FY18F

Lower fee structure to have limited impact

TK's share price has plunged 24% within a month not due to disappointment over 4Q17 earnings (+8% yoy), but on fears two new regulations for hire purchase firms would dent earnings. First, a new law published in Royal Gazette on 16 Feb caps late payment fees at 15% (vs MLR+10% previously which was equal to c.17%) and disallows HP firms from charging defaulters seizure fees. We estimate this would have limited impact on TK as fee income is only 2% of total revenue. Second, the Ministry of Finance may introduce a regulation to control interest rates and fees charged by non-bank financial institutions. Details are scant now but we believe at worst, it would cap total interest rate and fees charged at 36%, similar to the restrictions for Nano- and Pico- finance products. TK currently charges c.33% interest rate (excluding fees).

Conservative accounting to limit IFRS-9 impact

There is also concern about the impact of IFRS-9 which will be effective 2019. Calculation of Allowance for Doubtful Accounts (provisions) will be based on expected loss (forward-looking) instead of incurred loss. This means financial institutions could book higher provisions under IFRS-9. The provisions are subject to auditors' judgement but we believe it would be limited. Auditors are likely to review client data across the industry to decide on the amount of provision required. Among motorcycle hire purchase firms, TK has higher NPL coverage ratio of 122% (vs 80-110% for GL and S11) and stronger asset quality with 4.7% NPL ratio (vs 11% for S11 and 4.6% for GL).

Overseas HP loan portfolio to be key earnings driver in 2018

Our TP is intact at Bt20/sh based on 14% ROE, 11% cost of equity, and 7% growth. TK is trading at 1.4x FY18F PBV, cheaper than the Consumer Finance sector average of 3.1x. Apart from the above concerns, its operations are improving. We expect its HP loan portfolio to grow 10% in FY18F led by 3% expected growth in Thai motorcycle sales. Its overseas HP loan portfolio should grow 1.4x as it expands its network to 9 branches in Cambodia (6 now) and 3 in Laos (1 now).
